

## **Report of the Statutory Auditor**

To the General Meeting of  
**Korean Reinsurance Switzerland AG, Zurich**

### **Report of the Statutory Auditor on the Financial Statements**

As statutory auditor, we have audited the accompanying financial statements of Korean Reinsurance Switzerland AG, which comprise the profit and loss statement and the balance sheet as at 31 December 2021, cash flow statement and notes for the year then ended.

#### *Board of Directors' Responsibility*

The Board of Directors is responsible for the preparation of these financial statements in accordance with the requirements of Swiss law and the company's articles of incorporation. This responsibility includes designing, implementing and maintaining an internal control system relevant to the preparation of financial statements that are free from material misstatement, whether due to fraud or error. The Board of Directors is further responsible for selecting and applying appropriate accounting policies and making accounting estimates that are reasonable in the circumstances.

#### *Auditor's Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Swiss law and Swiss Auditing Standards. Those standards require that we plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers the internal control system relevant to the entity's preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control system. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Opinion*

In our opinion, the financial statements for the year ended 31 December 2021 comply with Swiss law and the company's articles of incorporation.

### **Report on Other Legal Requirements**

We confirm that we meet the legal requirements on licensing according to the Auditor Oversight Act (AOA) and independence (article 728 Code of Obligations (CO) and article 11 AOA) and that there are no circumstances incompatible with our independence.

In accordance with article 728a para. 1 item 3 CO and Swiss Auditing Standard 890, we confirm that an internal control system exists, which has been designed for the preparation of financial statements according to the instructions of the Board of Directors.

We recommend that the financial statements submitted to you be approved.

## Management Report

### Introduction

Korean Reinsurance Switzerland AG ("KRSA") is a 100% owned subsidiary of Korean Reinsurance Company ("Korean Re") in Seoul and was established on 12 July 2018 with the goal to strengthen the Group's European presence. KRSA is a reinsurance company domiciled in Zurich, focusing on Continental European property and casualty (P&C) treaty business.

KRSA's functional currency is EUR. For the statutory closing, the financial statements are presented in CHF. For this purpose, the EUR accounts are translated into CHF using the closing rate for the balance sheet and income statement (all 31 December 2021), and historical rates for equity (see pages 9/10).

### Financial review

KRSA reported a net loss after taxes of CHF 21.3m (EUR 20.6m) and its assets amounted to CHF 380.6m (EUR 367.3m).

The main drivers of KRSA's financial result are the premium income, the loss result (including increase in technical reserves), administrative expenses and the investment result. KRSA reduces its risk by purchasing retrocession. KRSA participates in Korean Re's XoL program and has Quota Share contracts with its parent company in place, ceding 70% of all property and 50% of all non-property business.

As of 31 December 2021, the Gross Written Premium (GWP) amounted to CHF 110.9m (EUR 107.0m). In its second year in business KRSA was able to further increase participations on existing treaties and to acquire a considerable amount of new business. In 2021, proportional business accounted for 58% (2020: 64%) of the premium income. Property accounted for 71%, motor for 12%, engineering lines for 9% and marine for 5% of the business portfolio.

The year 2021 saw extreme natural catastrophe events in KRSA's business area: In June, a series of severe hailstorms ("Volker", "Xero") affected Austria, Italy, Germany and Switzerland. In July the low-pressure system "Bernd" produced exceptional floods. It caused an economic loss of over EUR 46bn mainly affecting Germany, Belgium and Luxembourg. KRSA suffered losses in line with its market share in the affected countries. The net impact of both events amounts to CHF 10.0m (EUR 9.7m).

2021 saw a further deterioration of the ultimate net loss of COVID-19 related claims of CHF 3.0m (EUR 2.9m) since last year.

Acquisition costs and administrative expenses of CHF 24.7m (EUR 23.8m) consisted of CHF 18.7m (EUR 18.1m) acquisition costs on assumed business and of CHF 6.0m (EUR 5.8m) administrative expenses. The latter are largely driven by personnel expenses of total CHF 4.1m (EUR 4.0m) for the average 16.3 full-time employees.

KRSA is solely invested in high investment grade corporate bonds, which are carried at amortized cost. Annually an impairment test is performed, which until last year compared market with book value of the bonds. Since 2021 impairment will only be recognized if there is reasonable doubt the bond can be repaid. Net investment income in 2021 was CHF 1.0m (EUR 1.0m), stemming from bond's income and unrealized net gains from our USD positions.

Other financial income / expenses included negative interest rates as well as the interest expense for the right of lease of our office. Other income/expenses comprised the stamp duty for the capital increase.

KRSA received a capital injection of CHF 43.3m (EUR 41.5m) from its parent company Korean Re in November 2021, which increased its legal capital reserves. On the asset side, the corporate bonds amounted to CHF 86.0m (EUR 83.0m). KRSA's strategic asset allocation is currently under review and

the proceeds from the capital injection have not been invested per balance sheet date, resulting in a significant cash position of CHF 59.9m (EUR 57.8m).

The Board of Directors will propose to KRSA's shareholder to offset CHF 4.7m (EUR 4.5m) of the total loss of CHF 21.3m (EUR 20.6m) against KRSA's remaining restructuring fund.

### **Business overview**

At 1 January 2022 renewals, KRSA was able to retain the business previously underwritten by its parent company Korean Re and added a relevant portion of new treaties. Despite the ongoing challenges (Covid-19 restrictions, 2021 European Nat Cat events), KRSA was able to expand its client reach and is on track with the implementation of its long-term business strategy. During the year, KRSA complemented its team with new colleagues and kept strengthening its business capabilities.

### **Risk management**

Risk management as a component of the governance system serves to identify, assess, report and monitor risks to which KRSA is exposed. The operational organization of the Risk Management system comprises the Head of Risk Management & Compliance and the Risk Management Committee. Furthermore, the organizational structure of the Risk Management system follows the concept of "Three lines of defense".

With the three lines of defense approach, KRSA pursues the goal to identify and manage the risks at all levels throughout its entire business process. All departments, processes and systems are involved and different procedures have been implemented to achieve complete risk identification. The Internal Audit function has been outsourced to Korean Re.

KRSA has established an Internal Control System (ICS) under the responsibility of the Board of Directors. The Head of Risk Management & Compliance ensures that the KRSA-wide process and risk and control documentations are up to date and reviews whether these are implemented in the business routines.

KRSA's Risk Management Committee is responsible for the regular analysis of risk identification, risk assessment and the preparation and implementation of risk-mitigating measures. The Risk Management Committee consists of the Executive Management, the Head of Risk Management & Compliance and the Responsible Actuary. The Committee focuses on Risk Governance and Risk Management topics in the broadest sense and takes place four times a year. Annually, an in-depth risk assessment is performed resulting in an overall risk profile, which was presented to the Board of Directors at the meeting on 3 March 2022.

The overall risk profile is an essential component of the ORSA process, in which KRSA carries out a forward-looking self-assessment of the risk and solvency situation each year. KRSA's risk appetite is defined by its target SST ratio between 120% to 150%. KRSA's SST report as of 1 January 2022 shows an SST ratio of 163%.

### **Extraordinary events (during reporting period)**

Covid-19 continued to affect everyday life, impeding business travel and limiting social contacts. In the second year of the pandemic, remote working and virtual meetings became routine and most client meetings could be held quite efficiently online. Pandemic exposure was excluded at 1.1.2021 renewal and the claims deterioration on 2020 treaties has stabilized by Q4 2021 with a potential positive development in 2022.

The June-hail and particularly July-flood events caused record losses in affected countries and also left their mark on KRSA's 2021 financial result. On a more positive note these events allowed KRSA to prove its strong support towards its cedants by providing timely claims payments.

## Outlook

In the aftermath of a record European Nat Cat year 2021, the 2022 renewal started late. KRSA followed a disciplined pricing approach and was able to achieve rate increases in the affected markets. Also, the significant efforts in the last years to position Korean Re as a more relevant P&C partner to its target clients paid off. KRSA could increase the number of client relationships and access more business on a direct basis. The number of cedants has increased from 90 to 104 and a total of EUR 35m of new business was underwritten, resulting in a positive outlook for 2022.

Financial markets have started the year 2022 with some turbulences. Expectations that Central Banks will start tightening monetary policy and fighting economic overheating and high inflation rates with the increase of interest rates, have led to corrections on the stock markets. KRSA is currently solely invested in corporate bonds but is reviewing its strategic asset allocation and is planning to diversify into other asset classes in the coming years.

Russia's shocking invasion of the Ukraine has aggravated the macro-economic uncertainty and inflationary tendencies. KRSA is constantly assessing the situation, but sees no reason to adjust its strategy at present.

KRSA's growth plan for the coming years is ambitious but realistic based on the achievements in the last three renewals. Further investments in KRSA's operational capabilities are planned and KRSA is well prepared to benefit from a hardening of the reinsurance markets. KRSA is still in a build-up phase and – in line with its strategic plan – expects to achieve break-even financial results in 2024.

## Board of Directors, Management and Auditors

### Board of Directors as of 31 December 2021

	<b>Residence</b>
Chul Min Jang (Chairman)	Seoul, Korea
Ji Han Han (Member)	Seoul, Korea
Reinhard Thoennissen (Independent Director)	Wallisellen, Switzerland
Sven Siegin (Secretary of the Board of Directors)	

### Management as of 31 December 2021

Markus Eugster (Chief Executive Officer, CEO)
Jazmin Seijas Nogareda (Chief Financial Officer, CFO)
Won Joong Choi (Chief Operating Officer, COO)
Michael Hinz (Chief Underwriting Officer, CUO)

### Auditors

Deloitte AG
-------------

The mandatory functions of KRSA are the Internal Audit, Risk Management Function, Compliance Function and the Responsible Actuary.

The Board of Directors saw no change in 2021; all members were reelected at the Annual General Meeting (AGM) on 29 April 2021 for the period 2021/2022. Furthermore, the AGM confirmed Deloitte AG as KRSA's external auditors for the 2021 fiscal year.

Up to 31 March 2021 KRSA's CEO Markus Eugster held also the Chief Underwriting Officer (CUO) function. As per 1 April 2021 Michael Hinz was promoted to CUO, expanding the management team to four people.

## Notes to the Financial Statement

Korean Reinsurance Switzerland AG ("KRSA" or "the Company") is a reinsurance company domiciled in Zurich, Switzerland. KRSA received its reinsurance license on 1 June 2019 from FINMA. The Company is a 100% owned subsidiary of Korean Reinsurance Company ("Korean Re") Seoul, South Korea.

### 1. Basis of presentation

KRSA's financial statements are presented in accordance with the Swiss Code of Obligations and relevant insurance supervisory law, including the FINMA Insurance Supervision Ordinance (ISO-FINMA), as of 15 December 2015.

All amounts in the financial statements, unless otherwise stated, are shown in Thousand Swiss Francs (CHF k) and Thousand Euros (EUR k), rounded to the nearest Thousand, with the consequence that the rounded amounts may not add up to the rounded total in all cases. All variances are calculated using the actual figures rather than the rounded amounts.

KRSA's business year lasted from 1 January 2021 to 31 December 2021.

### 2. Summary of significant accounting policies

#### a. Investments

The company holds corporate bonds, which are carried at amortized cost. An annual impairment test on individual bonds is performed and the lower of amortized cost or market value is recognized in the income statement if there is significant doubt that the counterparty cannot repay or only partially repay the bond.

#### b. Right of use asset

KRSA recognizes its right to use the office space as an asset and also recognizes the respective lease obligation in its balance sheet. The right of use asset is amortized over a period of ten years using the effective interest rate method.

#### c. Deferred acquisition costs

Acquisition costs related to reinsurance business are deferred. The deferred costs are subsequently amortized over the period in which the related assumed premiums are earned.

#### d. Tangible assets

Property and equipment are valued at acquisition or production cost less accumulated depreciation and value adjustments. Tangible assets are depreciated on a straight-line basis over four years. If there are signs of overvaluation, the book values are reviewed and, if necessary, value adjustments are made.

#### e. Intangible assets

Expenditure on software is capitalized and amortized on a straight-line basis over its useful life, not exceeding four years. If it is determined at the end of the year that the value in use of the software is less than the carrying amount, the value in use is used for the valuation (impairment).

#### f. Accrued assets

This amount relates mainly to accrued interest from investments and prepaid expenses.

**g. Reserves for unearned premiums (UPR)**

UPR represent the portion of the premiums written relating to the unexpired term of insurance coverage as of the balance sheet date. In many insurance contracts, the insurance period for which the insurance company assumes a risk against a premium paid does not correspond to the Company's financial year. Thus, an amount equivalent to the unearned portion of the premium is set up as a reserve at the end of the financial year.

**h. Reserves for losses and loss adjustment expenses**

Case reserves are established for reported claims and reserves for losses incurred but not yet reported (IBNR). KRSA also builds up premium deficiency reserves (PDR) and unallocated loss adjustment reserves (ULAE).

Equalization reserves are not required by the Swiss regulator FINMA for reinsurance companies. KRSA can establish equalization reserves if an underwriting profit is made and Executive Management can determine the amount to be added. In the reporting year no equalization reserves were added.

The measurement of technical provisions is based on actuarial calculations, which by their very nature involve a certain degree of uncertainty and subject of significant management judgment.

**i. Investment income and expense**

Realized capital gains/losses on investments occur when the sales price or redemption value is higher or lower than the carrying value at the time of sale. The gain/loss is the difference between carrying value and the sales price.

**j. Exchange rates**

KRSA maintains its accounts in EUR (functional currency). Income statement transactions in currencies other than EUR are recorded at a monthly average rate. In general, at period end, monetary assets and liabilities in foreign currencies are revalued at the closing rate of the balance sheet date. Resulting exchange differences are included in the income statement.

For the statutory closing, the financial statements are presented in CHF. For this purpose, the EUR accounts are translated into CHF using the closing rate for the balance sheet and income statement (all 31 December 2021), and historical rates for equity. A resulting currency translation difference is shown as a revaluation reserve in the equity.

The main exchange rates used are presented below:

<b>Foreign currency per EUR</b>	
	<b>Balance Sheet</b>
	<b>31.12.2021</b>
CHF	1.0362
KRW	1352.6762
USD	1.1372
GBP	0.8396
PLN	4.5834
CAD	1.4365
ZAR	18.1500

#### Historical rates Equity

<b>Foreign currency per EUR</b>	
	<b>CHF</b>
16.08.2018	1.1534
15.05.2019	1.0272

#### Other Comments

##### *Other financial expenses*

This position includes negative interest under various financial expenses, and the interest expense of the office lease.

##### *Non-operating expenses*

Non-operating expenses amount to the stamp duty paid for the CHF 43.3m (EUR 41.5m) capital increase in 2021.

##### *Direct tax expenses*

Direct tax expenses include Swiss income and capital tax expenses. In this financial year, only capital tax is due

### 3. Gross written premium (GWP)

GWP Treaty type	CHF k		%	EUR k

<b>Total</b>	<b>110,902</b>	<b>56,198</b>	<b>100%</b>	<b>107,027</b>	<b>51,959</b>

### 4. Premiums ceded to reinsurers

KRSA cedes 70% of its property and engineering and 50% of other business to Korean Re on a proportional basis.

Furthermore, KRSA benefits from Korean Re's external XoL protections at a premium of CHF 0.9m (0.9m EUR) in 2021.

Due to the large losses in Q2 and Q3 2021, which impacted the Group's XoL Retro program, extensive recoveries but also reinstatement premiums of EUR 23.3m were booked.

In average, the ceded premium was 74% of gross written premiums.

### 5. Accrued assets

## 16. Full-time equivalents

The annual average number of full-time equivalents for the year 2021 including trainees but excluding temporary employees was 16.3 (prior extended year 2020: 12.6).

## 17. Further points subject to mandatory disclosure (Art. 959c OR)

- KRSA holds no participations, or other investments.
- No hidden reserves have been released.
- No significant events have occurred since the balance sheet date.
- KRSA has no liabilities to pension schemes, no contingent liabilities, no restricted assets nor any other commitments.

### Appropriation of available earnings as proposed by the Board of Directors

The Board of Directors will propose to its shareholder at the Annual General Meeting to partially offset the loss of CHF 21.3m with the Restructuring fund (CHF 4.7m).

The remainder of the loss of CHF 16.6m will be carried forward.

in CHF k and EUR k , as of 31 December 2021

	CHF	EUR
Net loss after taxes	-21,324	-20,579
<b>Available earnings</b>	<b>-21,324</b>	<b>-20,579</b>
Restructuring fund to be released	4,701	4,452
<b>Balance carried forward</b>	<b>-16,623</b>	<b>-16,127</b>

No dividend was proposed due to the year-end loss.
