

Actuarial Internship (P&C, Specialty) in Zurich – 3 months from October to December 2026

About Korean Re Switzerland

At **Korean Re Switzerland**, we are part of the global Korean Re Group—an ambitious and fast-growing reinsurance company delivering innovative solutions across multiple lines of business.

We combine **technical excellence, global perspective, and collaborative culture** to solve complex risk challenges. As an intern, you won't just observe—you'll **contribute, learn, and make an impact from day one**.

The Opportunity

We are looking for a **curious, analytical, and motivated Actuarial Intern** to join our team in Zurich.

This is a **hands-on internship** where you'll work closely with experienced actuaries and gain real exposure to **pricing, risk assessment, and reinsurance analytics**.

You'll develop practical skills, work on meaningful projects, and build a strong foundation for a career in actuarial science or reinsurance.

What You'll Do

- Analyze large datasets (cleaning, transforming, interpreting results)
- Support actuarial modeling and pricing work
- Collaborate with underwriting and other teams
- Contribute to real business projects and ad-hoc analysis

What We're Looking For

- Studying (or recently graduated in) **Actuarial Science, Mathematics, Statistics, Economics**, or similar
Strong analytical mindset and **advanced Excel skills** (experience with **R, Python, or Alteryx** is a plus)
- Interest in insurance/reinsurance (prior knowledge helpful but not required)
- Clear communication skills and attention to detail
- Proactive, curious, and eager to learn
- Fluent in **English** (German or French is a bonus)

Why you should join us

- Real-world experience in a growing international reinsurance company
- Work directly with experienced actuaries and industry experts
- Friendly, inclusive, and collaborative team culture
- Exposure to a wide variety of actuarial and business topics
- A strong stepping stone for a future actuarial career

Application Process

Please submit your CV, a cover letter detailing your motivation for applying, and any relevant academic transcripts to recruiting@koreanre.ch

We look forward to hearing from you and potentially welcoming you to our team!
