

Actuarial Internship (P&C, Specialty) in Zurich – 6 months from July to December 2025

About Korean Re Switzerland

Korean Re Switzerland is a subsidiary of the Korean Re Group, a dynamic and growing reinsurance company, specializing in providing reinsurance solutions across various lines of business. As a diverse, innovative firm, we offer a unique opportunity for interns to gain hands-on experience in the actuarial field, work closely with industry professionals, and contribute to impactful projects that drive the success of the company.

The Opportunity

We are seeking a highly motivated and detail-oriented Actuarial Intern to join our team, for a period of 6 months in July to December (we are open to slightly different time frames as well). The intern will work alongside experienced actuaries, gaining practical exposure to the reinsurance industry, and will contribute to the development of models, data analysis, pricing, and risk assessments. This internship will provide invaluable experience in actuarial techniques and the reinsurance business in a collaborative and supportive environment.

Key Responsibilities

- Assist in the development and maintenance of actuarial models for pricing.
- Conduct data analysis, including data cleaning, transformation, and interpretation of results.
- Perform research on industry trends, regulations, and market conditions relevant to reinsurance.
- Collaborate with cross-functional teams to gather data and insights for ongoing projects.
- Help with the automation of actuarial processes and tools to improve efficiency.
- Assist in the development and validation of pricing assumptions and techniques.
- Participate in various ad-hoc actuarial projects as required.

About you and your skills

- Currently pursuing or recently completed a degree in Actuarial Science, Mathematics, Statistics, Economics, or a related field.
- Strong analytical skills and proficiency in Excel, with the ability to work with large datasets.
- Knowledge of actuarial software (e.g., R, Python, or Alteryx) is a plus.
- Basic understanding of reinsurance and insurance principles is desirable, but not required.
- Strong communication skills, both written and verbal, with the ability to present complex information clearly.
- Detail-oriented, self-motivated, and eager to learn in a fast-paced environment.
- Fluency in English (German or French language skills are a plus).

What We Offer

- A hands-on, real-world actuarial experience at a growing reinsurance company.
- Opportunity to work closely with experienced actuaries and other professionals.
- Mentorship and guidance to support your personal and professional development.
- A collaborative and friendly work environment with a focus on continuous learning.
- Exposure to a wide range of actuarial tasks and projects within the reinsurance industry.

Application Process

Please submit your CV, a cover letter detailing your motivation for applying, and any relevant academic transcripts to our Head of Pricing and Analytics nurhana.tajuddin@koreanre.ch. We look forward to hearing from you and potentially welcoming you to our team!
